

Are You a Technology Partner Yet?

What is a Technology Partner?

A Technology Partner is any customer that wants free, up-to-date information at Waukesha's exclusive WEDlink.net web site.

What will being a Technology Partner mean to you?

- Free access to electronic versions of various Waukesha Engine sales, parts, and service information including manuals and service bulletins.
- 24 hour, 7 days a week access to Waukesha's exclusive WEDlink.net web site.
- Up-to-date information on service procedures and parts.
- Current service information so you operate and maintain your engine right every time – saving you time and money.

What information will you have access to?

WEDlink.net contains links to electronic versions of:

- | | |
|----------------------|----------------------------------|
| Power Ratings | Newsletters (Power Connection) |
| Installation Manuals | Operation & Maintenance Manuals |
| Technical Data | Marketing Literature & Brochures |
| Parts Catalogs | Product Specification Bulletins |
| News Releases | Engine Outline Drawings |
| Service Bulletins | Case Histories |
| Special Application | Product Training Information |
| Approval (SAA) Forms | & Scheduling |

How do you become a Technology Partner?

It just takes one simple step!

Contact an authorized Waukesha Distributor or Power Partner, a Waukesha Engine Regional Manager, or a Waukesha Engine Compression Manager, and let that person know you want to become a Technology Partner. For help in locating a representative, visit waukeshaengine.dresser.com and click About Waukesha on the side menu and select Directory.

That's it. The Waukesha Engine representative takes it from there. Soon a login and password will be issued to you and you'll be able to login to www.WEDlink.net (the exclusive web site that links you to the free information).

Yes, it's that simple to have access to a whole range of free, up-to-date Waukesha engine information.
